💡 Ease of Use

UI Customization

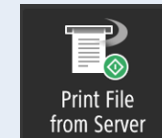

Drag & Drop
Tab Function

Enhanced Cloud Collaboration

Simplify Routine Tasks

Drag and drop the function button

I want to customize the position of the button.

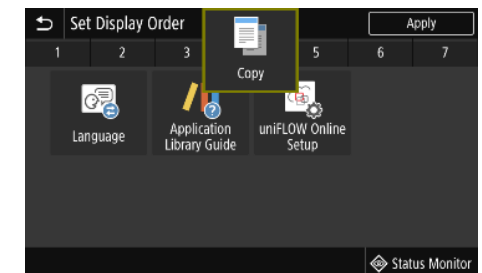

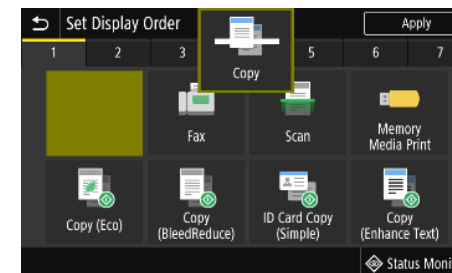

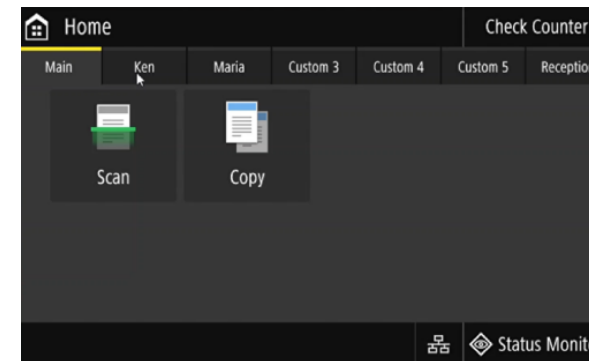

Reorganize the buttons by drag and drop.

▶ UI Screen – Easy Customisation

By organizing the home screen into different name **tabs**, you can arrange the buttons based on different purposes.

Move the buttons by **drag and drop** action.

Scan/Print to Cloud (Third Party)

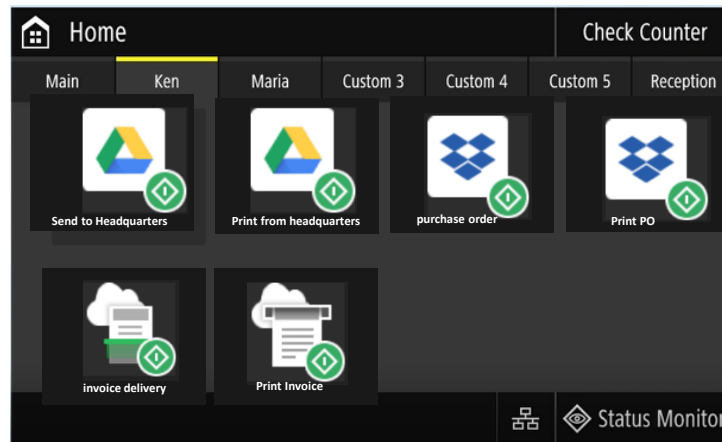

I want to reduce the amount of time spent exchanging documents with headquarters.

Create a shortcut button on the Home screen to:

- Send scanned documents to pre-registered destination, OR
- Print directly from the pre-registered cloud (without PC)

▶ Cloud scan* / print

Example: For Stores

Send to Headquarters

- Scan documents >> Upload data to the cloud

Print from headquarters

- Access specific document from the cloud >> Print

*Scan to Cloud (For MF752Cdw and MF756Cx)

Save frequently used document and print anytime

I want to conveniently print the same document every time.

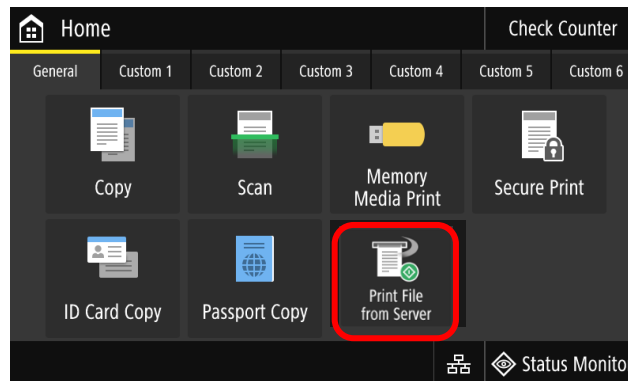

Upload the frequently used document to a **file server** and print at a touch of a button.

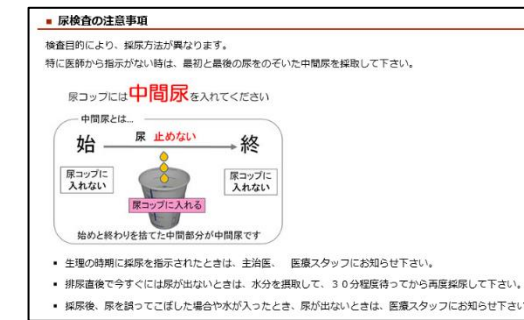

▶ Print saved template document

Press "Print File from Server" >> Output

Device Security

**Verify System
at Startup**

**Prevent Eavesdropping
and Spoofing**

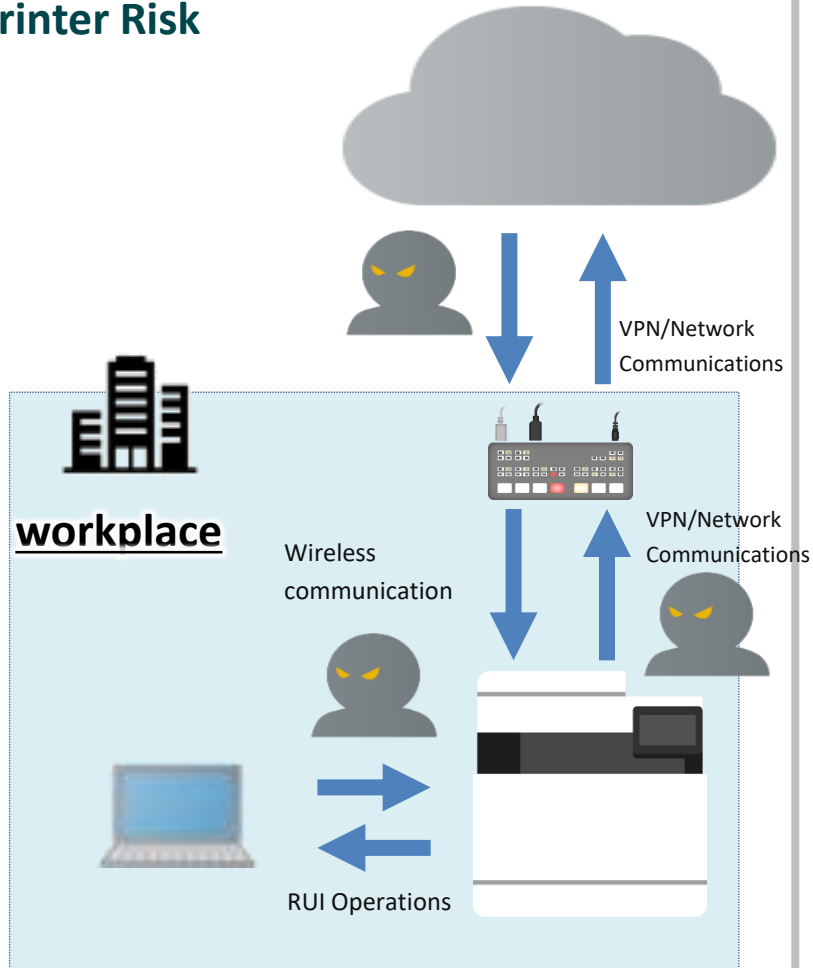

► System Verification/Verify System at Startup

Check for malicious programs at startup to prevent these malicious programs from running

- ✓ Perform checks to verify that no tampering on the boot code/controller software
- ✓ Stops startup when an invalid program is detected

Printer Risk

▶ Prevent eavesdropping and spoofing

Protect communications with the latest encryption and authentication technologies.

Greater Connectivity

► Microsoft Universal Print

- Cloud-based Print Solution
- For Windows 10 or later PC with Microsoft 365 subscription
- Universal Print is already pre-installed in PCs, users only need to add supported printers
- Universal Print runs entirely on Microsoft Azure. When it's deployed with Universal Print-compatible printers, it doesn't require any on-premises infrastructure
